VERTICAL BLINDS & COMPONENTS

Bass Wood Arches

INSTALLATION HARDWARE INCLUDED

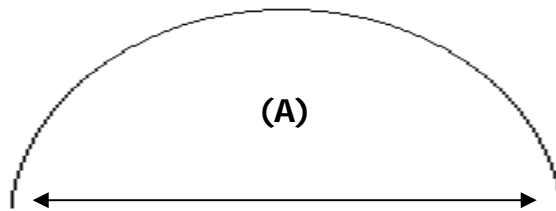

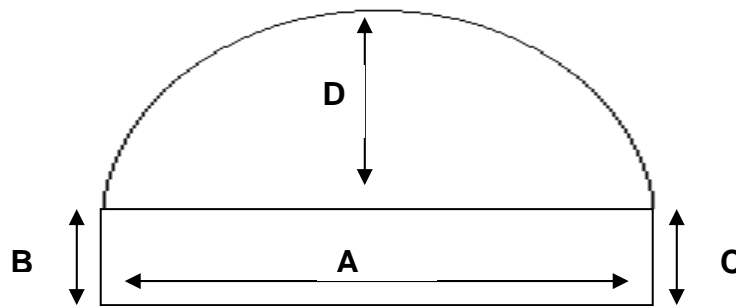

Figure (A)

Measuring Information for Perfect Arches:

- For the top treatment, measure the inside width of the arch at the desired base of the arch (A) (figure A).
- Find the correct “Size to Order” in the chart listed above.
- The arch will mount outside the window.

Measuring Information for Eyebrow Arches:

- For the top treatment, measure the inside width of the arch at the desired base of the arch (A) and the inside length on the left side (B), the right side (C) and the center (D) (Figure B).

* Note B and C need to be at least 7” high.
